

Gentlelmen PLEASE I respecfully request you to REJECT the NAB'spetition 04-160.I PAY for the services XM Satelite provides & benefit greatly as well as enjoy the quality & variety that is not even available to me from other sources. I feel the Nat. Assoc. of Brod. have no right dictating what I CHOOSE & am permitted to hear, if NAB feel they are loosing their " market share" then they should compete & earn it by improving the quality of service they provide not trying to get the government to protect them. Again, if I didn't feel so strongly about XM Sat. Radio I would'nt be PAYING for the service.

Thank You

Respectfully Submitted
